*Please note, 2,000 preorders are necessary to bring Patriots Maine license plates into law. All orders will be held and produced when the Patriots license plates law is passed and finalized, which may take approximately one year from July 2011. When the law is passed and plates begin production, each person who placed a preorder will be mailed a voucher, which is transferable. They then can bring to the DMV to be placed on the list to have their plate created.
